

Name: \_\_\_\_\_

Malen nur die Dreiecke an.  
Achte beim Ausmalen auf den Rand.

The worksheet is enclosed in a rounded rectangular border. In the top-left corner, there is a small box containing a green cartoon monster with blue horns, holding a paintbrush and a palette. To its right is a solid red triangle. Below the monster is the website address [www.mathemonsterchen.de](http://www.mathemonsterchen.de). The rest of the page is filled with a collection of various geometric shapes: squares, rectangles, circles, pentagons, and hexagons. The task is to identify and color only the triangles among these shapes. The instruction at the top right emphasizes that only triangles should be colored and to be careful of the edges.
