

Name: _____

Malen nur die Quadrate an.
Achte beim Ausmalen auf den Rand.

The worksheet is divided into two main sections. The top-left section contains a cartoon monster holding a paintbrush and a palette, a red square, and the website address www.mathemonsterchen.de. The rest of the page is filled with a variety of geometric shapes: squares, rectangles, circles, triangles, pentagons, and hexagons. The instruction is to color only the squares.
